

Wish You Were Here!

Greetings from Muskegon, Michigan!

There are miles of sand dunes along the beautiful lakeshore, and the sunsets are incredible. The activities are endless and the people are so friendly. Unfortunately, I ended up having to go to the emergency department (I'll explain later). The doctors and nurses were very nice and provided me with excellent treatment. I thought of you when I overheard the staff saying they need a really good physician. I thought, "I know just the person!" Give me a call if you're interested.

Kristie
